LAKES AND RIVERS

Crane Lake

Only one mile from the end of the road gives Pine Point the quiet getaway location that you will cherish each time you visit. Being strategically located at your back door, the BWCAW, Voyageurs National Park, and Canada's Quetico Provincial Park offer you unspoiled wilderness with millions of acres and thousands of scenic shoreline miles to fish, hike, and explore.

From Crane Lake you can travel over 120 miles by boat. Crane Lake has many natural fishing areas. On either side of Pine Point's Peninsula, there are two separate rivers coming in. Walleyes, bass and crappies key on the forage that is abundant in these incoming waters.

An incredible sight, the Crane Lake Gorge

Loon Lake

One of the most scenic trips to take. Voyage down the Loon River to a mechanical portage that allows you to cross into Loon Lake.

The walleye, northern pike and smallmouth bass fishing are spectacular in these majestic waters. Fish either the American or Canadian side.

The distance from the Lodge is approximately 20 miles. Caution is to be used when traveling to Loon Lake. For your first trip a guide would be recommended. Anticipate seeing a majestic bull moose, black bear, playful otters or other mystifying wildlife. Don't forget your camera for this trip!!

2023 Kid Pro Angler

Vermilion River – River fishing at its best! Our 14' boat is nestled below the falls on the Vermilion River. This allows you to fish the area from the Vermilion Falls down to the Rapids above the Gorge at Crane Lake.

Note: Very little fishing pressure is on this area. We have maps that you can review to help you become familiar with this exclusive fishing area.

Walleyes, crappies and bass swim in the strong currents of this secret fishing hole. The 300-yard portage is a very scenic wilderness trail.

Sharpen up your river fishing skills on the Vermilion River. Get ready to reel them in!

Discounted Catch and Release Program

allows you to harvest fish. However, in order to maintain your fishing satisfaction and to preserve our fishery, the larger, spawning fish must be released. The complete group must participate to qualify for these discounted rates. Guidelines below:

LAKES AND RIVERS

Vermilion Gorge

Hike the Historic Gorge... track wildlife... listen to loons... watch eagles.

One of the most picturesque areas of Crane Lake is the Vermilion Gorge. The trail can be picked up just around the point from the Lodge.

The 3 mile Vermilion Gorge Trail, at a leisurely pace, can be easily hiked in 3 hours. The last portion of the trail parallels the Gorge – a rugged landscape of sheer granite cliffs and rock outcrops. As you begin this portion of the trail, notice the change in vegetation. The ground is covered with a soft, green moss carpet sprinkled with spearmint plants to enhance the beauty of this majestic, scenic wonder.

A breathtaking adventure you must experience.

2023 Kid Pro Anglers

Visit the Vermilion Falls... marvel at the cascading waterfall...

A 10-minute hike on a well-maintained trail going southwest puts you at the Vermilion Falls, a cascading torrent of water forced through a 10-foot-wide opening in the granite.

The northeast section of the trail will lead you to “The Chute,” a constriction in the river that produces a Class III to V rapids. This is a pleasant 5-minute walk and worth the effort.

Look for wild rice beds. The shoots begin to emerge in mid-July and seed heads won't develop until the first part of August. Extensive wild rice beds flourish along the Vermilion River and are harvested by humans and wildlife alike from late August through October.

There are picnic tables and fire grates at the site for a perfect afternoon adventure!

Of the park's 218,000 acres over one-third are water. Thirty lakes of all sizes make up this enchanting chain of lakes. The larger lakes are dotted with pine covered rocky islands. The beauty is extraordinary. Your experience at Pine

Point could include motorboating, fishing, canoeing, sightseeing, hiking along trails – looking for animal signs or blueberries in season. Voyageurs National Park stands preserved and protected by the National Park Service, giving you a view of the world as it appeared to the French and Canadian fur traders centuries ago.
